

(c) if so, the specific plan formulated thereon for Ninth Plan and the steps taken to implement the measures proposed to be adopted in that direction?

THE MINISTER OF STATE OF THE MINISTRY OF SCIENCE AND TECHNOLOGY AND MINISTER OF STATE OF THE MINISTRY OF POWER (SHRI YOGINDER K. ALAGH) : (a) Development of science and technology is encouraged to gain knowledge of the natural processes and their governing laws. A part of the knowledge so gained results in technology to benefit the society. The cause of scientist is served when scientific establishments are developed to create congenial conditions to enable them to pursue their ideas.

(b) and (c) Government has been encouraging the development of science and technology in the country. Since independence, there has been a gradual and significant increase in Government support for science and technology. A number of S & T agencies and establishments have been created to promote S&T efforts in the respective areas.

The approach to science and technology development during the 9th Plan has been drafted to include the nurturing of scientific and technological research and manpower, creating centres of excellence, providing more autonomy to scientific institutions and laboratories including their modernization and networking, developing core technological strengths in key sectors, involvement of socio-economic Ministries for S&T inputs and involvement of Voluntary agencies in science and society related programmes, emphasis on technology management and marketing and issues related to Intellectual Property Rights and patenting, etc. Some initiatives already undertaken are the matching rupee-to rupee scheme and funding for technology through the Technology Development Board. The recent new initiative is the announcement of Swarna Jayanti fellowships for basic research to support outstanding scientists to enable them to do world class level science.
